

1. From power off, hold the **VOLUME UP** key while holding the **POWER** button until you can see the boot interface ,

Free your hand and wait for a few seconds, then you can see the recovery menu with the word "no command" in the middle of the screen appears

2. Again, click the **Power** button and the **Volume up** button **together** to load up the reboot menu, **be careful don't long press**. If not success, please try it a few times.

Then using the **Volume down** button to scroll through the menu, highlight "*Wipe data/factory reset*".

3. Press the **Power** button to select. Use the **Volume Down** key to scroll to "*delete all user data*" and tap the **POWER** button to select

4. When the wipe is complete, use the **POWER** button to select "*reboot system now*". Your phone will power on and be reset to its factory settings.
